

May 16, 2014

Dear Supplier:

CVS Caremark is committed to continually improving our collective supply chain performance and to that end we are pleased to introduce you to the CVS Consolidated Inbound Shipping Program.

This Program was designed to provide consistent expedited receiving into the CVS Distribution Network with a goal of reducing lead-time and improving In-stock position all while providing competitive transportation rates for both LTL and under-utilized Truckload shipments.

CVS has partnered with C.H. Robinson, one of the world's largest third party logistics companies, to manage this Program. C.H. Robinson brings not only a well-established nationwide consolidation network but also the systems, expertise and flexibility to ensure a smooth on-boarding process.

This Program is being rolled out through a targeted phased approach. Each Supplier will be categorized into an on-boarding group and CVS will notify each group separately when we are ready to proceed. Shortly after receiving CVS' on-boarding notification C.H. Robinson will reach out to discuss the details of the program and start the rating and on-boarding process.

As the first point of contact for your company CVS is asking for your assistance in getting C.H. Robinson to the subject matter experts and ultimate decision makers. Please direct all questions regarding participation and pricing to C.H. Robinson at cvcs@chrobinson.com or via phone at (855) 202-0006.

CVS encourages all Suppliers to investigate this opportunity as we truly feel we have created a Program which will bring value throughout the supply chain.

Thank you. The CVS / C.H. Robinson team looks forward to working with you on accelerating our supply chain.

Sincerely,

Ron Link
Senior Vice President, Supply Chain & Logistics

Luis Mercado
Vice President, Inventory Management

Judy Sansone
Senior Vice President, Merchandising & Retail Pricing
